EXECUTIVE SUMMARY

From brand strategy to pixel-perfect execution — 25+ years of making brands impossible to ignore.

Senior Art Director and Visual Identity Specialist with 25+ years of experience leading and personally shaping creative direction across advertising agencies, technology companies, and multi-brand holding groups. Specialized in developing 360-degree design strategies and building corporate brand identities from the ground up, including logo systems, typography architecture, brand books, and visual identity guidelines. I actively lead and execute ATL, BTL, and TTL projects across digital and physical touchpoints, taking a hands-on role in visual design, art direction, and brand communication processes. By combining strategic thinking with strong visual storytelling in UX/UI, print, packaging, social media, and integrated campaign design, I create scalable, commercially effective, and visually powerful brand experiences. I work directly on creative development and visual systems for brands across automotive, banking, blockchain, hospitality, technology, and luxury sectors, creating clear, memorable, and strategically driven visual identities.

CAREER HIGHLIGHTS

- **Multi-Brand Mastery:** Led simultaneous visual identity and digital design for 13+ brands under TOR Holding — website, social, email, and print — without a single brand collision.
- **Design System ROI:** Built unified design libraries and brand systems at TOR Holding that cut production time by ~30% while raising output quality and cross-channel consistency.
- **Blockchain Brand Launch:** Created end-to-end visual identity, UI component library, and investor materials for Value Network's blockchain platform — from logo to GitHub open-source assets, adopted across 4 product teams.
- **Enterprise Scale:** Delivered institutional intranet UI and Microsoft-integrated mobile interfaces at Simternet (Knowizz) for corporate clients requiring WCAG-aligned, cross-device design.
- **Advertising Prestige:** Art directed national and international campaigns at Bart Ajans for Nokia, Pepsi, TEB Bankası, and TAV Havacılık across ATL (TV, OOH, print) and BTL (events, POS, direct) channels.
- **Financial Sector Creative:** Designed brand-consistent digital platforms for Akbank and 5 sub-brands (Acess, Mortgage, Sanat) alongside BMW, Land Rover, and Borusan Otomotiv at Turkline.
- **Photography ▶ Brand:** Unique ability to integrate original photography into brand systems — creating cohesive visual worlds, not just designed assets.
